NATIONAL ANTI DOPING AGENCY-RULES

On 7th March, 2008, the National Anti Doping Agency (NADA) has accepted the World Anti Doping Code. These Anti Doping Rules were adopted and implemented in conformity with the NADA's responsibilities under the Code and were in furtherance of NADA's continuing efforts to eradicate doping in sport in India.

2. In pursuance of the decision of the World Anti Doping Agency (WADA) to make amendments to the WADA Code in 2009, the Government of India, Ministry of Youth Affairs and Sports notified the amended National Anti Doping Agency Rules laying down the conditions for Athletes and Athlete support personnel for participation in sports events, as also the manner of collection of samples, conduct of results management of dope test results and conduct of disciplinary and appeal proceedings at national level. The amended rules will apply to whole of India and have come into operation with effect from 1st January, 2010.

3. NADA, as an entity designated by Government as possessing the primary authority to adopt and implement Anti Doping Rules, directs the collection of samples, the management of test results and the conduct of hearings all at the national level. Further, it may not be out of place to mention that Anti Doping programmes seek to preserve what is intrinsically valuable about sport. This intrinsic value is often referred to as 'the spirit of sport'. The spirit of sports is the celebration of the human spirit, body and mind and is characterized by the values such as ethics, fair play and honesty; health; excellence in performance, character and education.

4. While NADA will strive to discourage and prevent Indian Athletes and supporting personnel from using illegal and artificial performance enhancing prohibited drugs and to promote a healthy life style among our athletes, in its endeavour to request all stake holders also to join hands with NADA in completely eradicating the evil of doping in sport in India.

SAMPLE TESTING

NADA is responsible to implement effective number of In-Competition and Out of Competition tests on the athletes in its registered testing pool. The registered testing pool includes international and national athletes being tested by NADA relating to all disciplines of sports. Based on the data available in the registered testing pool NADA develops a test distribution plan and allocates the number of samples for each sport or disciplines required for effective anti doping action plan. This plan includes both Out of Completion testing and In Competition testing of both urine and blood.

In-Competition testing

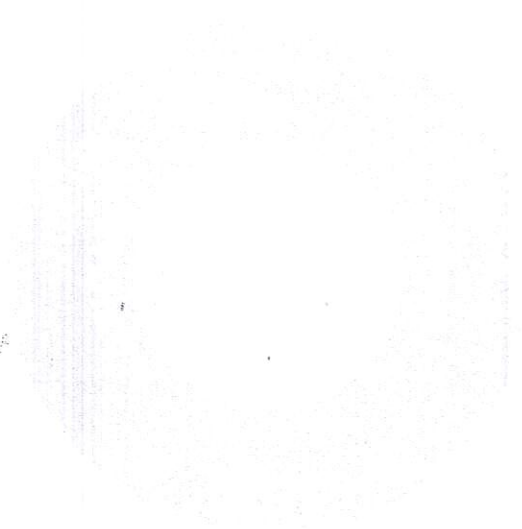

All National level in competition testing is the responsibility of NADA and the selection of athletes for sample testing is pre determined based on the regulations of the relevant international federations of event ruling body. Athletes are notified of their selection for testing immediately following competition and sample collection is done in accordance with the international standard for testing.

Out-of-Competition testing

Out of competition testing or any testing done outside of an event and NADA ensures that all athletes included in the registered testing pool could be tested at any time at any place. For this purpose, the athletes included in the registered testing pool are required to provide accurate and correct whereabouts information on periodical basis. Whereabouts information includes details of athlete address, work schedule, training venues etc. Failure to provide such information may be considered as anti doping rule violation leading to a sanction.
