

2015

ANTI-DOPING POLAND ANNUAL REPORT

Polish Commission Against Doping in Sport

MESSAGE FROM COMMISSION PRESIDENT AND OFFICE DIRECTOR

Doping continues to be one of the biggest threats to modern sport. The role of the Commission Against Doping in Sport is to protect clean athletes against cheaters who use prohibited substances or methods to enhance their sport performance. This mission has been pursued by the Commission since 1988, the year of its establishment, and has inspired all our actions and campaigns.

The words which best encapsulate the year 2015 are “challenge” and “work”. Challenge and work will guide our work in the years to come. Last year we conducted 3100 doping tests and found 39 anti-doping rule violations. Moreover, we collected 423 samples at the commission of international sport federations and foreign anti-doping organizations. Compared to 2014, detection of doping was slightly higher. However, it is alarming that prohibited substances, including “hard doping” ones, are used by younger and younger athletes – the case of a 17-year old cyclist, who experimented with testosterone, is just one example. He was suspended for possession and use of a prohibited substance based on the testimony made by other athletes.

As regards education, the year 2015, like the previous ones, was very intensive. We ran 46 direct educational campaigns and targeted approximately 6,000 persons. The Commission published an anti-doping manual for young athletes and continued its e-learning program, i.e. “Akademia Prawdziwych Mistrzów” [Academy of True Champions].

In 2015 “Polish Anti-Doping Rules” were incorporated into the legal orders of Polish sport associations. A Disciplinary Panel of the Commission Against Doping in Sport was established with the task of hearing cases of anti-doping rule violations.

*Prof. dr hab. Jerzy Smorawiński, M.D.,
Commission President*

*Michał Rynkowski,
Office Director*

The words which best encapsulate the year 2015 are “challenge” and “work”. Challenge and work will guide our work in the years to come. Last year we conducted 3100 doping tests and found 39 anti-doping rule violations

Undoubtedly, the permission of the Inspector General for Personal Data Protection to use the ADAMS system provided by the World Anti-Doping Agency (WADA) to collect athletes’ whereabouts information, communicate with WADA about planned and completed doping tests and complete implementation of the biological passport program marked a real breakthrough.

In 2015 four international meetings, important from the point of view of fighting doping in sport, co-organized by the Commission Against Doping in Sport, were held in Poland. In September, a meeting of the Council of Europe’s Ad Hoc Committee for WADA was held in Wrocław; it was chaired by Rafał Piechota, Deputy Director of the Department of Strategy and International Cooperation at the Ministry of Sport and Tourism. Meetings of the Council of Europe’s Ad Hoc Committee for Independent Disciplinary Panels were held in April and September (in Warsaw and Wrocław, respectively); they were chaired by Michał Rynkowski, the Commission’s Office Director. And finally, there was a meeting of the Council of Europe Monitoring Group’s Advisory Committee on Legal Affairs.

A lot of work is ahead of us – the Commission Against Doping in Sport will be transformed into the Polish Anti-Doping Agency and we will begin work on the act on fighting doping in sport which will be an act of law separate from the present act on sport.

EDUCATION AND INFORMATION

Education is an extremely important pillar of the anti-doping program. Every year the Department of Education and Promotion offers extensive anti-doping education to thousands of persons. We support Polish athletes through various educational initiatives to maximize the effectiveness of our effort.

In 2015 we continued our global anti-doping campaign “SAY NO! TO DOPING”, and combined it with the Commission’s own educational and information program “AKADEMIA PRAWDZIWYCH MISTRZÓW – CZYSTY SPORT” [Academy of True Champions – Clean Sport] targeted mainly at young athletes and their coaches. The program focused on sending anti-doping lesson plans, helps and handouts to athletes and coaches. By the end of 2015 we managed to reach out to approximately 2,500 people. Our contact platform on Facebook, Akademia Prawdziwych Mistrzów, was the most important link of the educational campaigns. Owing the active exchange of information we managed to build a community of young athletes voting without any hesitation for doping free sport. The Facebook profile was mainly used to report on important events (educational visits to sport events) and upload photo galleries and to organize anti-doping competitions.

TRAINING FOR COACHES

Apart from conferences and educational visits and campaigns at sport championship schools and at the Youth Olympic Days, in 2015 we launched a new project in cooperation with the Youth Sport Federation. In October and November we organized a series of training sessions for coaches who work with young athletes representing Olympic sports.

The training program was developed by the Commission Against Doping in Sport. It aimed at providing coaches working with young athletes with anti-doping knowledge. We were present in 8 provinces selected on the basis of the current sport potential, i.e. in the provinces of Lower Silesia, Kujawy and Pomerania, Łódź, Małopolska, Silesia, Wielkopolska, Warmia and Mazury and Western Pomerania. We managed to reach out to 321 coaches and instructors and 50 students of the University School of Physical Education in Poznań. The main speakers included Michał Rynkowski, Commission Office Director, and Dariusz Błachnio – Head of the Department of Education and Promotion. The series of training sessions was a great success among the coaches. The eight other Polish provinces expressed interest in the project and therefore we will continue it in 2016.

EDUCATION AND INFORMATION

“ANTYDOPING.PL” – AN ANTI-DOPING MANUAL

In 2015 the Commission produced and published a manual entitled “antidoping.pl” targeted at the sport community.

The manual supplements the mailing program and it carries all necessary information on the global and Polish anti-doping system, doping control, disciplinary sanctions, substances and methods prohibited in sport and health consequences of using doping. We also produced two short educational films promoting clean sport with Tomasz Majewski and Paweł Korzeniowski, ambassadors of the Commission’s anti-doping campaign, in the main roles. Both champions authored questions in the competition for athletes – all correct answers were awarded with attractive prizes and commemorative gadgets.

The “antidoping.pl” manual was distributed to athletes participating in the Youth Olympic Days, training conferences and sport championship school students. Its electronic version is available at www.antydoping.pl.

Our educational actions and campaigns were supported with Commission designed commemorative gadgets, which promoted doping free sport – bracelets, wallets, sponge bags, ball pens, hats and t-shirts.

EDUCATION AND INFORMATION

EDUCATIONAL ACTIONS

The following educational actions were conducted in 2015:

Visits to sport championship schools (SMSs) and sport schools during the "School Championship Days" action:

1. SMS in Szklarska Poręba (cross-country skiing, biathlon, badminton)
2. SMS in Poznań (swimming, rowing, canoeing)
3. SMS in Świdnica (road bicycle racing)
4. SMS in Wałcz (canoeing, rowing)
5. SMS in Toruń (road bicycle racing, rowing, football)
6. SMS in Gorzów Wlkp. (canoeing, rowing)
7. SMS in Szczyrk (ski jumping, cross country skiing)
 - Akademickie Państwowe Liceum Ogólnokształcące [State Comprehensive School] in Łomża (classes in light athletics, wrestling, football)
 - Zespół Szkół Sportowych [Sport Schools] in Tarnów (wioślarstwo, piłka nożna),
6. SMS Gorzów Wlkp. (kajaki,

Visit to SMS in Szczyrk – part of the Akademia Prawdziwych Mistrzów – Czysty Sport” educational project

EDUCATION AND INFORMATION

EDUCATIONAL ACTIONS

Visits to venues of Youth Olympic Days and other sport events:

1. OOM Bytom (tennis)
2. OOM Ciechanów (weightlifting)
3. OOM Ostrowiec Świętokrzyski (swimming)
4. OOM Kruszwica (rowing)
5. OOM Bydgoszcz (canoeing)
6. OOM Łódź (rugby)
7. OOM Łódź (light athletics)
8. Meeting with top handball players

EDUCATION AND INFORMATION

Anti-doping meetings organized at the initiative of Polish sport associations, sport clubs and other sport organizations, with the assistance of the Commission Against Doping in Sport:

1. Training for the Polish Sled Dog Racing Association in Lubieszów
2. Polish Light Athletics Federation, Polish Junior Championships in Toruń
3. Meeting of Małopolska light athletics team in Muszyna
4. Meeting within the framework of the “W-F z klasą” [Classy PE] action, Warsaw
5. FIT EXPO Conference – Diet-Medicine-Biochemistry-Sport, Poznań
6. Lecture at the ELSA legal conference in Gdańsk
7. Polish Yachting Club Cup in Puck
8. Training during the World Junior Weightlifting Championships in Wrocław
9. Meeting of the national junior light athletics team in Spała
10. Meeting of the national junior canoeing team in Wałcz

Our direct educational campaign reached out to over 6,000 persons

11. Meeting of the national pentathlon team in Spała
12. Methodology and training conference on handball, Nowa Sól
13. Training for premier league rugby clubs – Kraków, Łódź, Gdynia, Sochaczew, Poznań, Lublin
14. Training for handball instructors and coaches, in cooperation with the Wyższa Szkoła Trenerów w Sporcie [College of Sport Trainers], Warszawa
15. “Two faces of doping” conference at the S. Witkiewicz Secondary School, Warszawa
16. Training for REHASPORT Clinic in Poznań
17. Anti-doping training for students of the University School of Physical Education in Poznań (venue: Institute of Sport in Warszawa)
18. Training for coaches, Spała
19. Training for teenagers in Tarnowskie Góry
20. Lecture to students of the Faculty of Law and Administration, Warsaw University
21. Training for coaches of the Polish Cycling Federation

EDUCATION AND INFORMATION

PLANS FOR 2016

At the end of 2015 the Commission Against Doping in Sport started to prepare a new educational campaign. In 2016 the campaign's theme will be "Fair play – gram czysto" [Fair play]. First promotional gadgets have already been prepared.

The new campaign's theme will be "Fair play – gram czysto"

The Newsletter carries a collection of the most important information and problems connected with the fight against doping, most topical information about the work of the world anti-doping agency and national anti-doping agency. We also inform readers about plans aimed at the protection of clean sport.]

NEWSLETTER

Our Newsletter, available online since the beginning of 2013, plays an important role in our educational and information campaigns. It is published every two months and carries a collection of the most important information and problems connected with the fight against doping, most topical information about the work of the world anti-doping agency and national anti-doping agency. We also inform readers about plans aimed at the protection of clean sport. Furthermore, we carry interviews with well-known persons and warn against substances, which are detrimental to health. The Newsletter is addressed to the entire sport community in Poland. All issues published to date are available on the Commission's website.

EDUCATION AND INFORMATION

VISITS TO THE DRUG BASE BY DIFFERENT CLIENT GROUPS

In 2015 we recorded 4,548 unique visits to the online drug base (www.leki.antydoping.pl). 16,660 persons enquired about substances prohibited in sport, among them

In 2015 we recorded 4,548 unique visits to the online drug base

professional athletes (61%), amateur athletes (11%), others (11%), athlete's parents (5%), physicians (5%), coaches (4%), pharmacists (2%) and the staff of sport associations (1%).

DOPING TESTS AS PART OF THE NATIONAL TESTING PROGRAM

The statistics presented below relate to doping tests carried out in 2015. They were planned and carried out on the assumptions adopted in the annual doping test program. In the reporting period 3,100 urine and blood samples were taken (1557 in competition and 1543 out-of-

competition). All analyses were made by the Doping Test Unit of the Institute of Sport in Warsaw. The samples were collected during 408 control campaigns all over Poland from athletes representing 38 sport unions and associations.

ATYPICAL RESULTS

In 2015 the Commission requested additional analyses of 70 samples by the IRMS method whenever problems with steroid profile were detected. Such results defined as atypical are

reported by the laboratory with a recommendation of additional analysis or monitoring. Nine samples were not analyzed for lack of sufficient material.

S. 8 Cannabinoids – 4 cases	THC	4
S. 3 Beta 2 agonists – 1 case	Fenoterole	1

ANTI-DOPING RULE VIOLATIONS

In 2014 the Commission examined 41 cases of anti-doping rule violations. On the basis of laboratory analysis reports and DCO reports the Biological Sample Result Planning and Evaluation Team confirmed 39 anti-doping rule violations. The other cases, upon the examination of medical documentation or after additional tests

The Commission examined 41 cases of anti-doping rule violations.

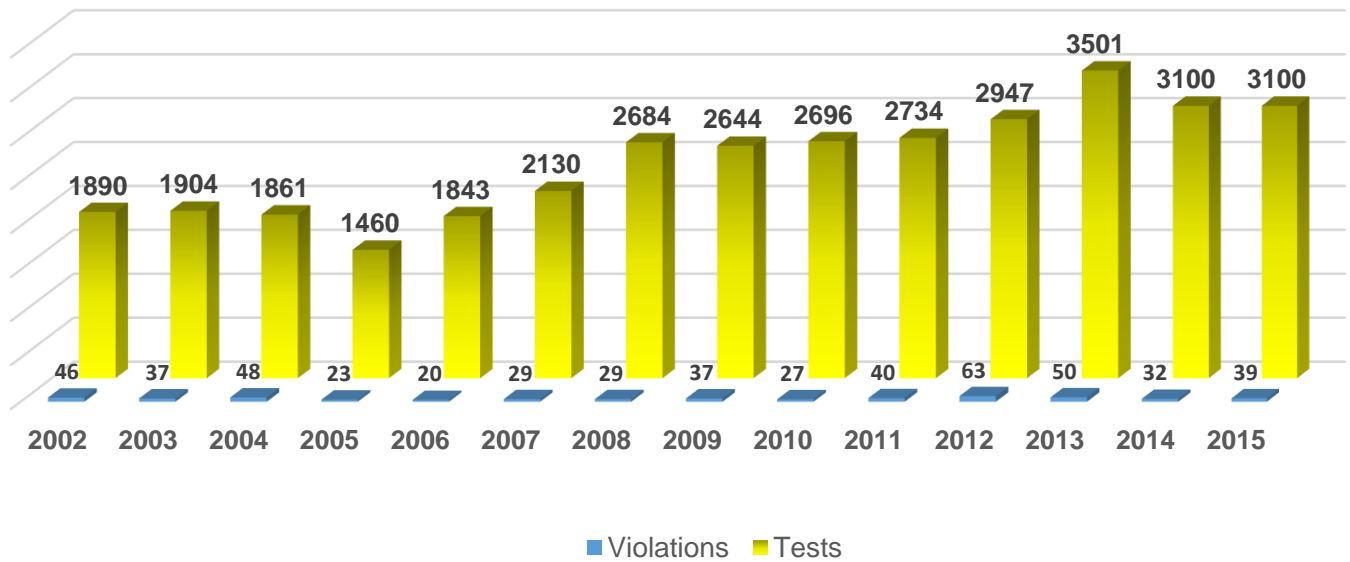

recommended by the Doping Test Unit, were discontinued since no anti-doping rule violation was confirmed or the Commission could not prove it. Furthermore, in 2015 there were two cases of athletes' failure to report their whereabouts information to the monitoring system.
