Annual Report Doping Control Agency of Thailand

Doping Control Agency of Thailand
Sports Authority of Thailand

02-186-7559

dcat.thailand@gmail.com

www.dcat.in.th

Introduction

In accordance with sports policy and international standard determined by World Anti-Doping Agency : (WADA), Thai Government, Therefore has enacted Anti-Doping Control Act B.E. 2555 affixed by the royal signature of His Majesty King Bhumibol Adulyadej on 28 December B.E. 2555 (2012 A.D.) and promulgated in the Royal Gazette on 9 January B.E. 2556 (2013 A.D.) Then being entered into force on 9 May B.E. 2556 (2013 A.D.).

By the virtue of Article 18(9) of the Act, it is mandatory for Doping Control Agency of Thailand to compile its report annually. Thus, the 2019 annual report has been released accordingly.

Message from Governor Sports Authority of Thailand

“

I am very proud and confident that Thailand has retained its international standard in doping control program. Our strategy and plan in fight against doping are clearly implemented and put into practice since the establishment of Doping Control Agency of Thailand (DCAT). Not only its long term program in monitoring, preventing and testing, but also proactive educational activities are introduced, definitely align with rules and regulations of World Anti-Doping Agency (WADA), to instill clean sport attitude into athletes from the beginning to elite level.

In this regard, on behalf of the Sports Authority of Thailand, I would like to thank all concerning units and personnel, e.g. the Board of Doping Control Agency of Thailand, Doping Control Agency of Thailand and staff for their dedication and hard work in reducing unacceptable doping violation in sport to absolute minimum.

”

A handwritten signature in blue ink, which appears to be "Gongsak Yodmani".

Dr. Gongsak Yodmani, Ph.D

Governor of Sports Authority of Thailand
Secretary of Board of Doping Control Agency of Thailand

Message from Director DCAT Sports Authority of Thailand

Dr. H.M. Inwood, MD BSc.(hons.)FIMS.

Director, Doping Control Agency of Thailand

“

Doping Control Agency of Thailand was created in 2015 according to Anti-Doping Control in Sports Act B.E.2555 (A.D.2012) and the World Anti-Doping Code. Its main purpose is to protect Thai athletes from the harmful effects of doping, both physically and morally.

Since then, the Agency has gone through multiple processes to ensure that it is fully compliant with the World Anti-Doping Code. Working with the fundamental belief in the right of athletes to compete in a dope-free environment, the Agency now focuses most of its efforts in value-based education and intelligent testing programmes. In the past year we have created multiple platforms for education, focusing on the e-learning and social media, all of which can be accessed through www.dact.in.th website.

On behalf of DCAT, I would like to thank DCAT board members, the Ministry of Tourism and Sports, Sports Authority of Thailand, National Sports Associations and all DCAT staff for their dedication in the fight against doping in sports both at national and international levels.

”

ADMINISTRATIVE STRUCTURE

Administrative Structure of DCAT

Doping Control Agency of Thailand (DCAT) was established under Section 18 of Anti-Doping in Sports Act B.E.2555 with the aim to perform and conduct its duty as a department of Sports Authority of Thailand in accordance with authority, rule, regulation and policy determined by Anti-Doping in Sports Committee in order to gain success and achievement along with alignment to WADA rule and regulation

The agency consists of 2 divisions and 4 working sections i.e.;

1. Anti-Doping Control Division

1.1 Testing Section

The main task of this unit is to conduct testing arrangement, starting from sample collection and ending at WADA accredited laboratories around the globe. This section, therefore, has to learn and know how to conduct collection process properly in order to ensure equity and fairness in any of sports competitions and sports events. Apart from this duty, it is important for this section to keep contact and communication with concerning organizations both national and international.

1.2 Legal Section.

This section is in charge of controlling and result managing in order to ensure quality and efficiency of controlling the use of prohibited substance to be conformed with WADA Code. In addition, it is necessary not only to keep contacting with other organizations e.g. sports associations/federations both local and international, but to create database for athletes who have been found positive and must be punished in accordance with rules and regulations also.

2. Administration Division

2.1 Secretary section

This section is basically responsible for general affairs, administrative activities and all meetings of DCAT committee including to support role and activity of special committees. In addition, it is necessary for the section to make an annual report for the year 2018 in order to comply with Thailand Anti Doping Act and WADA Rule.

2.2 Education Section

Activities of this section is to make a plan and programs for knowledge propagation of the agency by applying various methods e.g. out reaching program during competitions and sporting events, doping control courses arrangement for sport personnel. Therefore this section has to update all doping information by contacting and exchanging for current situation of doping control education with international organizations such as WADA, WADA Asia and so on.

3.2 2/2019 on 9 August 2019 at Sports Authority of Thailand

3.3 3/2019 on 21 October 2019 at Sports Authority of Thailand

3.4 4/2019 on 13 November 2019 at Sports Authority of Thailand

4. Arrangement of support payment to World Anti Doping Agency: WADA

with the amount of 41,942.95 USD (1,723,567 Baht) on 20 February 2019

5. Updating DCAT office database

e.g. structure and workforce, function, duty and to formulate annual budget in order to meet SAT strategy.

6. Enhancing efficiency of management in organization as commitment to meet the standard of World Anti Doping Agency.

6.1 Doping Control Officer (DCO) meeting at Golden Tulip Sovereign Hotel, Bangkok during 17–18 September 2019

6.2 ICT Management Seminar for DCAT during 14–16 August 2019 at Trat Province

7. Oversea Study Tour for DCAT Committees and Administrators

7.1 — The first 2019 overseas study tour program had been arranged for DCAT committees and administrators during 22 – 26 April 2019 at Japan Anti-Doping Agency ; JADA in Tokyo. There were 11 members of this group with its aim to study and exchange e.g. knowledge ,experience, structure and workforce in their office including working program of JADA' s testing ,education and result management units. Besides, they had planned and discussed on possibility to send Thai DCAT officials to come to JADA for more learning and studying the progress of doping control management from JADA in both regional and global levels.

7.2 — The second one had been arranged during 2 – 9 June 2019 at U.S. ANTI-DOPING AGENCY : USADA in Colorado Spring . The aim of this tour was to study how USADA became the most leading in doping control unit with effective human resources management with up-to-date technology applying in its program.

Conclusion

The both study tours were undoubtedly very useful and fruitful. The group had gained new vision with awareness on how the importance of doping control was in order to achieve integrity and fairness in all sport competitions and without cheating. Eventually there should be integral working in international level by exchanging ideas, technologies and methods together for getting rid of doping in sport .

8. Annual report Arrangement

8.1 To present to DCAT Board

8.2 To present to WADA: World Anti-Doping Agency

9. General affairs and filing work for the office with input 914 cases and output 599 cases

10. Budget management

| | Budget (Bath) | Actual Spending (Bath) |
|--------------------------------------|-------------------|---------------------------|
| 10.1 Annual regular budget | 24,919,000 | 24,144,378 |
| 10.2 National Sport development Fund | 20,000,000 | 14,896,518 |
| Total | 44,919,000 | 39,040,896 |

TESTING & INVESTIGATION

Testing & Investigation

1. Conducting the testing in accordance with sports competition programs.

All doping tests were carried out under the national testing program by collecting 1,592 samples.

1.1 In-Competition testing with 607 samples came from;

- 36th National Para Games 2019, Chiang Rai Province (50 samples)
- 35h National Youth Games 2019, Buri Ram Province (150 samples)
- Sports Competition which conducted by Sports Association and IFs (407 samples)

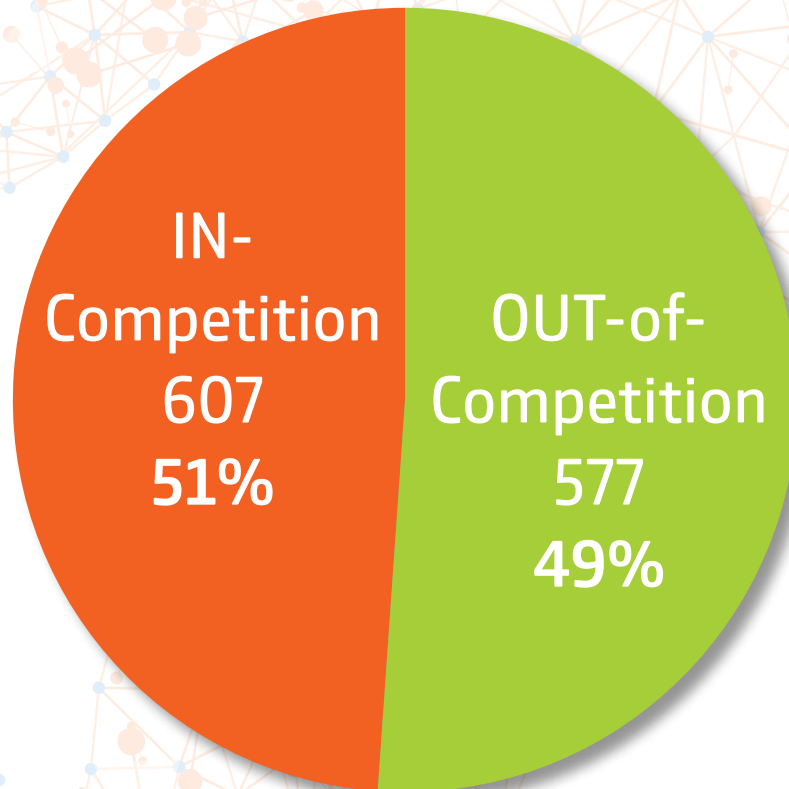

1.2 Out-of-Competition testing with 577 samples came from;

- Pre-Games Testing Program for athletes who participated at 30h SEA Games + Registered Testing Pool Athletes (423 samples)
- Pre-Games Testing Program for athletes who participated at 10t ASEAN Para Games + Registered Testing Pool Athletes (102 samples)
- OOCT program for Athletes of Sports Association (52 samples)

2. Imported Doping Control Testing Kit (Berlinger and VERSAPAK) 2,500 Kits

3. Therapeutic Use Exemption Application from 5 sports (Taekwondo, Petanque, Windsurfing, Archery and Judo)

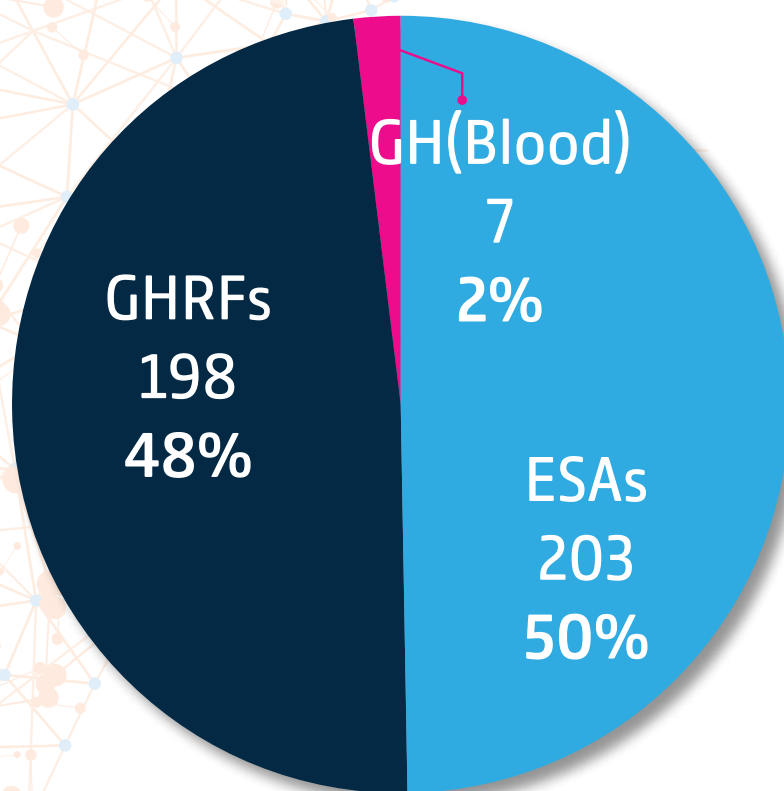

Summary Report on Number of Testing 2019

EDUCATION

Introduction

Basic principle for information and education programs for doping-free sport is to preserve the spirit of sport. The objective shall be to prevent the intentional or unintentional Use by Athletes of Prohibited Substances and Prohibited Methods. To promote anti-doping education, adopt and implement anti-doping rules and policies which conform to the Code. DCAT focus on providing basic information to Athlete and Athlete Support Personnel as described in Education programs and activities.

- Prohibited List
- Harm of doping to spirit of sport
- Anti-doping rule violations (ADRVs)
- Consequence of Doping : sport sanction, health and social
- Doping Control Procedures
- Rights and Responsibilities
- TUE
- Managing the risk of supplements
- Whereabouts
- Global DRO

Seminar

Outreach

Public
Awareness

Athletes and Athlete Support Personnel (ASP) of the National Games and Regional Games is the target group of beginner.

All athletes and ASP have been informed of

- Harm of doping to spirit of sport
- Rights and Responsibilities
- Prohibited List
- Consequence of Doping

DCAT created 3 methodologies for this target group;

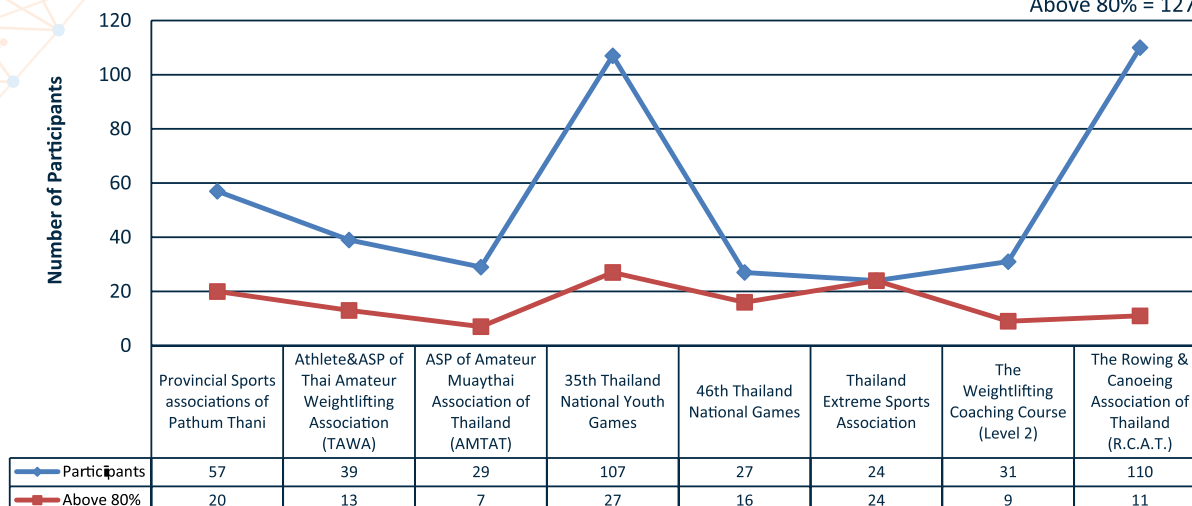

Seminar

We organized seminar for both athletes and ASP before games and evaluated by 20 questions selected from ALPHA and Coach True. We also used the seminar for the risk sports association and sports provincial.

Seminar

Total Number of Participants = 424
Above 80% = 127

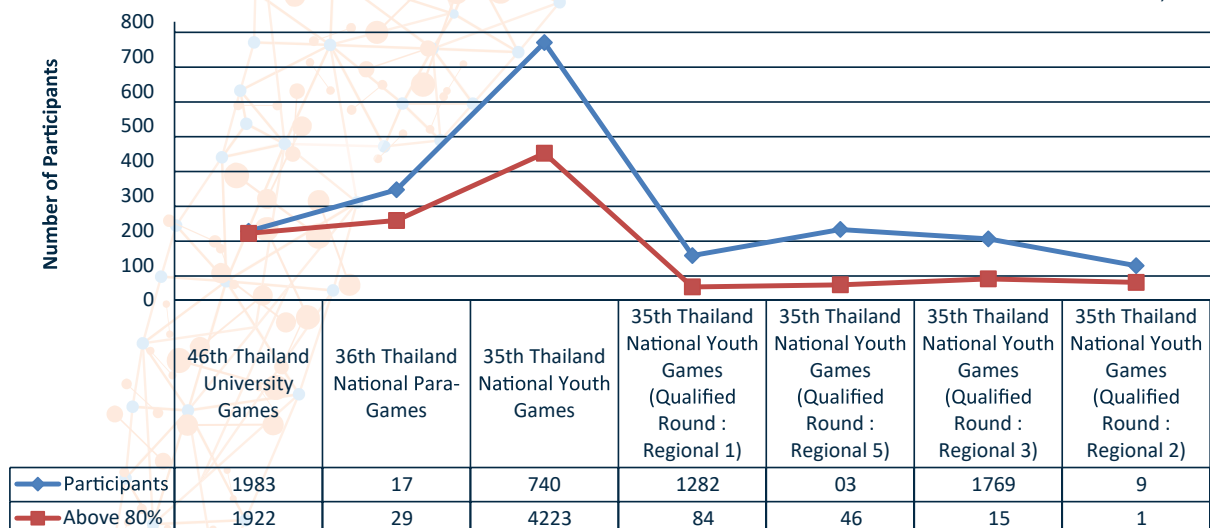

Outreach

We delivered services at various locations; Competition Venue, Training Camp, Sport Association, Sport Provincial, University, etc. Outreach is the activity of providing the fundamental knowledge of Anti-Doping.

Outreach

Total Number of Participants = 1,861
Above 80% = 1,457

Public Awareness

To raise awareness of the Anti-Doping and Clean Sport issue by the Anti-Doping Parade in the opening ceremony of Thailand National Games and Thailand National Youth Games

“ The 1st DCAT Committee meeting ”

- On 11th September 2019
At Ministry of Tourism and Sports

“ The 1st DCAT Committee meeting ”

- On 11th September 2019
At Ministry of Tourism and Sports

“ Doping Control Officer (DCO) meeting ”

• At Golden Tulip Sovereign Hotel, Bangkok during 17–18 September 2019

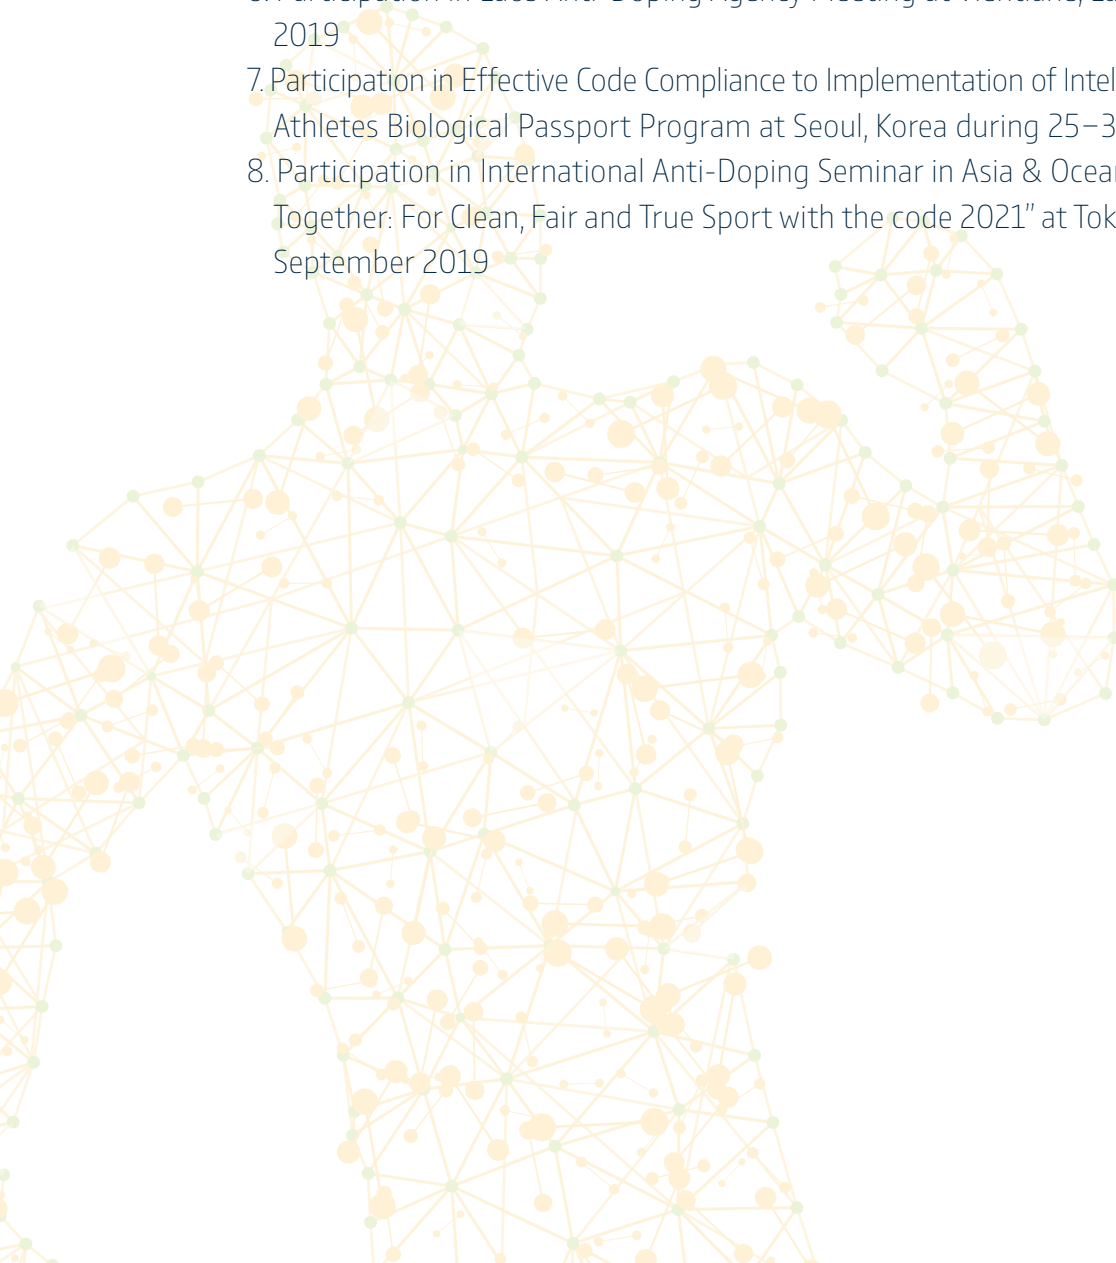

INTERNATIONAL ACTIVITIES

International Activities

To create and promote network with international Anti-doping organizations

1. Participation in the “2018 WADA Athlete Biological Passport (ABP) Symposium” at Rome, Italy during 5–7 November 2018
2. Participation in the “Athlete Engagement and their Rights and Achieving the code Compliance: Steps for the 2021 Code” at Tokyo, Japan during 4–7 December 2018
3. Attending Southeast Asia RADO Board Meeting and SEA RADO-DCO Training Course) at Manila, Philippines during 18–23 February 2019
4. Attending the “2019 WADA Symposium” at Lausanne, Switzerland during 13–14 March 2019
5. Study Tour Program for DCAT Committee and Administrators USADA, Colorado USA during 2–9 June 2019
6. Participation in Laos Anti-Doping Agency Meeting at Vientiane, Laos during 18–20 June 2019
7. Participation in Effective Code Compliance to Implementation of Intelligence & Investigation, Athletes Biological Passport Program at Seoul, Korea during 25–30 June 2019
8. Participation in International Anti-Doping Seminar in Asia & Oceania “Create Legacy Together: For Clean, Fair and True Sport with the code 2021” at Tokyo, Japan during 22–28 September 2019

Participation in the 2018 WADA Athlete Biological Passport (ABP) Symposium

- At Rome, Italy during 5–7 November 2018

“Participation in the Athlete Engagement and their Rights And achieving the code Compliance: Steps for the 2021 Code

- At Tokyo, Japan during 4–7 December 2018

Attending Southeast Asia RADO Board Meeting and SEA RADO-DCO Training Course

- At Manila, Philippines during 18–23 February 2019

Attending the 2019 WADA Symposium

- At Lausanne, Switzerland during 13–14 March 2019

Study Tour Program for DCAT Committee and Administrators USADA

- At Colorado USA during 2-9 June 2019

“Participation in Laos Anti-Doping Agency Meeting

- At Vientiane, Laos during 18–20 June 2019

Participation in Effective Code Compliance to Implementation of Intelligence & Investigation, Athletes Biological Passport Program

- At Seoul, Korea during 25–30 June 2019

Participation in International Anti-Doping Seminar in Asia & Oceania

“Create Legacy Together: For Clean, Fair and True Sport with the code 2021”

● At Tokyo, Japan during 22–28 September 2019

CONCLUSION AND RECOMMENDATION FROM EACH SECTION

1. Legal Section

1.1 Analytical examination for prohibited substances in contaminated food supplements or drugs taken by athletes without knowing there are banned substances.

Problem The athlete ,who is tested positive for prohibited substances, claims that the detection is the result of taking supplements or drugs to treat illness without knowing that it contains banned substances. Athletes are required to submit the proof for defending by sending samples of those supplements or drugs to the Department of Medical Sciences which requires a period of time and costs for analysis.

Solution There should be a memorandum of understanding (MOU) for the analytical examination of contaminated substances in food products, supplements or drugs.

1.2 The Members of the Appeal Committee

Problem The arrangement of convening date in order to determine the date of the Appeal Committee's meeting, since there are currently 5 members of the appeal committee consisting of 1 medical committee member, 1 sport committee member and 3 legal committee members, but according to the Announcement of the Anti-Doping Control Board on Appeal Procedure of 2557 B.E. (2014 A.D.),Article 3 determines that in the meeting of the Appeal Committee, there must be at least one member of medical expertise , one of legal expertise and one of sport expertise to be present, so because there is only one member from the medical and sport expertise and in case of one of them could not be able to attend the meeting, then the meetings would not happen. So it is difficult to set up a meeting date.

Solution To revise the order of appointment up to a total of 7 members for Appeal Committee, consisting of 2 for the medical committee members, 2 for the sports committee members and 3 for legal committee members for the convenience of convening. As such if any committee member is unable to attend the meeting ,there is still another committee available to attend the meeting.

1.3 Giving the athletes an appellate right at Appeal Committee.

Problem The Anti-Doping in Sports Act, B.E. 2555 (2012) ,Article 27 by giving the right to athletes who are not satisfied with the punishment order of the Punishment Committee can appeal the order to the Appeal Committee. Despite the athletes has accepted their intention to use banned substances to gain any advantages. And the substances detected are related to the type of their sport and they enhance their performance. Therefore there are no other facts or any new facts to be raised in order to reduce the penalty in the Appeal Committee. In addition, there is no reason to reduce any penalties for athletes who intend to use banned substances in order to gain sports advantage.

Solution By the amendment of the Anti-Doping Control Act B.E. 2555 (2012) with additional detail for scrutinizing in order to accept or reject the appellate prior to submit to the Appeals Committee's meeting.

1.4 Interpretation of the documents sent to WADA.

Problem On the occasion of WADA has regularly followed up the operation regarding the detection of positive in athletes under the supervision of DCAT. Therefore all relevant documents should be in English before sending to WADA. Solution Translation fee is needed.

Solution Translation fee is needed.

1.5 To which events are sanctioned athletes not allowed to participate in?

Problem Due to the case that the athlete filed a lawsuit to the Administrative Court contending the Sports Authority of Thailand's order that the punishment for not participating in any sporting event is unclear.

Solution Clearly announcement of sports events participation banned

1.6 Publication of WADA CODE in Thai Version

Problem WADA CODEs of 2015 in Thai version are insufficient for the need of use.

Solution The additional publication is needed.

2. Testing Section

2.1 In-Competition Testing Distribution Plan [In-Competition TDP]

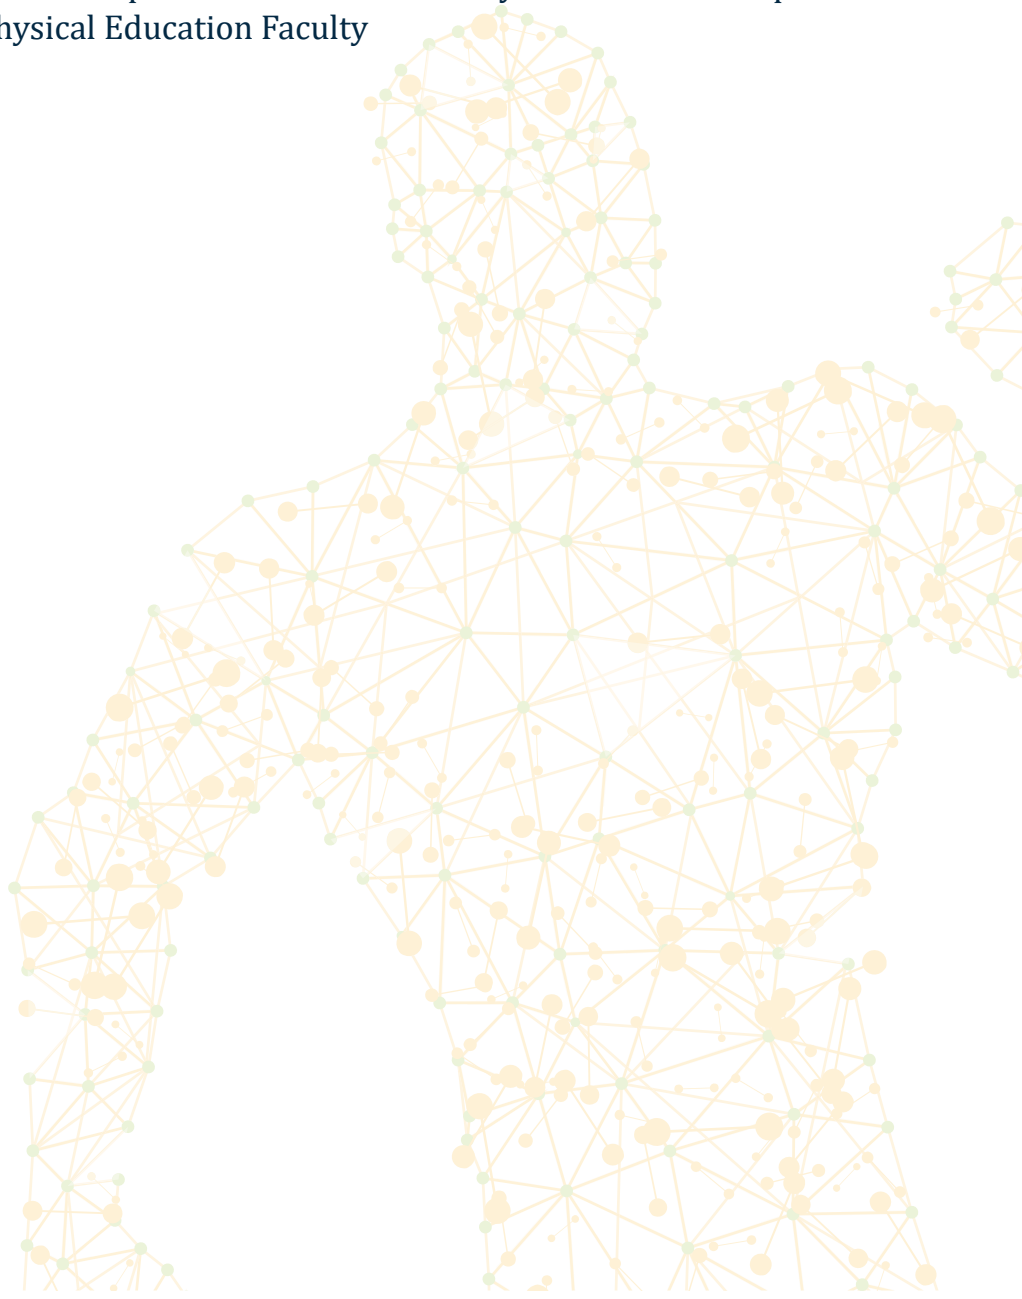

Problem National Sports Associations did not provide the proper competition program in advance, it cause DCAT can not prepare the in-competition testing plan to implement effectively.

Solution Communicate with Elite Sport Developing Department at SAT to provide the proper competition plan which the national sport associations send to them for budget approval to DCAT in advance each year for more effective In-Competition TDP

2.2 Lack of Doping Control Personnel

Problem Limitation of Doping Control Personnel (both DCO and BCO)

Solution Conduct more the DCO and BCO training course to the each regional part by recruiting from the personnel from University which have the Sports Science and Physical Education Faculty

3. Education Section

3.1 Education Activities (Clean Sport 2019)

Problem Unable to cover the numbers of specified target which indicated in the Education Plan because some of the athletes and ASPs have not been training or staying within the country or they frequently have to participate in the competition in other countries.

Solution We have implemented the on-line Face to Face for this group of attendants.

3.2 Documentation and Leaflets

Problem The documentations and Leaflets could not reach all of targeted athletes and ASPs.

Solution Increase on-line channels to broaden the Education content such as software or application that can be used via cellular phone and tablet.

3.3 DCAT website (www.dcat.in.th)

Problem The website is not up-to-date and less user friendly, lack of some functions such as the function for athletes to submit TUE form or whereabouts.

Solution Reimplement the website to modernize it and to reach users expectation. Add more functions so that athletes can submit the concerned documents to DCAT and in line with WADA code.

3.4 System for Thailand Anti-doping Management (STAM)

Problem The output of some modules are not cover all the functions. The report system need to be modified to meet user requirement.

Solution Justify the system to support all the required functions.

3.5 Educator

Problem Insufficient staffs and inadequate knowledge about Anti-doping experience and also the training skill.

Solution

- Encourage and support them to get the training and workshop courses and also The opportunity to learn from the expertise of other NADOs. Organize the monitoring process to improve the outcome.
- Enhance the partnership with related sports organizations such as Sports Association of Thailand, Provincial Sports Association and Sport University to gain qualified external educators.
