HUNGARIAN ANTI-DOPING GROUP

ANNUAL REPORT

20₂₁

Hungarian Anti-Doping Group Health and Service Non-profit Limited Liability Company

The Hungarian Anti-Doping Group Ltd. was established on March 20, 2007, to participate in Hungarian anti-doping activities. The company's employees, as Doping Control Officers, had already participated in the domestic anti-doping fight, but now they have been given the opportunity to establish an independent and effective anti-doping organization in its work.

In August 2007, the organization won the 2003 CXXIX Public Procurement Tender by the Ministry of Local Government and Regional Development, pursuant to the Act on the Rules of Anti-Doping Activities, 88.2007 (IV.26.) Government Decree No 55.2004 (III.31.) for the implementation of doping sampling and management procedures as defined in the government decree and for the full presentation of the tasks of the National Anti-Doping Organization (NADO). In this way, the Hungarian Anti-Doping Group Ltd. fulfilled its full authority and all its tasks until 31 December 2011. Although the Public Procurement Contract had not previously obliged The Hungarian Anti-Doping Group Ltd. in this respect, the company nevertheless carried out non-profit-making management throughout its existence and used its entire revenue to fight doping.

Subsequently, the regulation of anti-doping activities was amended in 2011 in order to fully comply with the provisions of the WADA Code, in Government Decree 43.2011 (III.23.), which currently defines the activities of the National Anti-Doping Organization (HUNADO). In 2011, during the public procurement procedure registered under number 28313, which was announced by the Hungarian Olympic Committee in the field of "full performance of the tasks of the National Anti-Doping Organization (HUNADO) as defined in Government Decree No. 43.2011 (III.23) on the rules of anti-doping activities", the Hungarian Anti-Doping Group Ltd., which was founded as a non-profit organization for public benefit, repeatedly applied for and won it, and subsequently, a contract of assignment was

OUR MOTTO IS "HONEST PLAY IS THE ONE WAY."

awarded with the Hungarian Olympic Committee. On the basis of this mandate, the Hungarian Anti-Doping Group Non-profit Ltd. continued to perform the full tasks and powers of the National Anti-Doping Organization (HUNADO) in the period from 01 January 2012 to 31 December 2015.

It was an honor and at the same time a professional recognition for us that after the end of this period, as a result of a public procurement procedure conducted in two cycles by the State Secretariat for Sports of the Ministry of Human Resources, the Hungarian Anti-Doping Group Ltd. has been given the trust and mandate to carry out the tasks of the National Anti-Doping Organization (HUNADO) until 31 December 2023.

On 9 July 2021, Government Decree No 363/2021 (28.VI.) on the Rules of Anti-Doping Activities, also accepted by WADA, entered into force, which defines the activities of the National Anti-Doping Organisation (HUNADO) from its entry into force.

The guiding principle of our activities is that "doping is fundamentally contrary to sport", therefore the most important goal of our anti-doping work is to enforce the prohibition of unreasonable performance-enhancing on the basis of the current legal and other regulatory background, thereby achieving and preserving the "spirit of sport", its purity, and equal opportunities.

Our motto is "Honest play is the only way!"

One of the many levels of our anti-doping activity is doping control itself, which goes from the planning and organization of sampling, through the on-site execution of urine and/or blood collection to safe transport to the appropriate laboratory. Another part of our activity is the educational – preventive activity, in which we provide the information necessary for the cleanliness of the sport, doping legislation, warnings, current prohibition lists, etc. to Athletes and the professionals who help them.

TESTING PROGRAM

The professional activity of the Hungarian Anti-Doping Group, as the body performing the functions and powers of the National Anti-Doping Organization (HUNADO), in the period from 01 January 2021 to 31 December 2021:

Anti-doping is a multi-level activity, one part of which is doping control itself, from the planning and organisation of Sample collection, through the on-site collection of urine and/or blood samples, to their safe transport to the appropriate laboratory. The other part of the activity is the implementation of the "Rules on Anti-Doping Activities" 43/2011 (III.23.2017), which entered into force on 01 January 2017.) and the newly enacted Government Decree No 363/2021 (28.VI.) on the Rules of Anti-Doping Activities, which is also accepted by WADA, and which are the NADO tasks provided for in the public procurement tender, which constitute the proper functioning of the National Anti-Doping Organisation. In addition to doping control, the NADO's priority task continues to be the educational - preventive activity, which involves providing athletes and the professionals assisting them with the necessary information on the purity of sport, doping legislation, warnings and the up-to-date Prohibited List.

Between 01 January 2021 and 31 December 2021, the Hungarian Anti-Doping Group Non-profit Ltd. fulfilled the required NADO tasks.

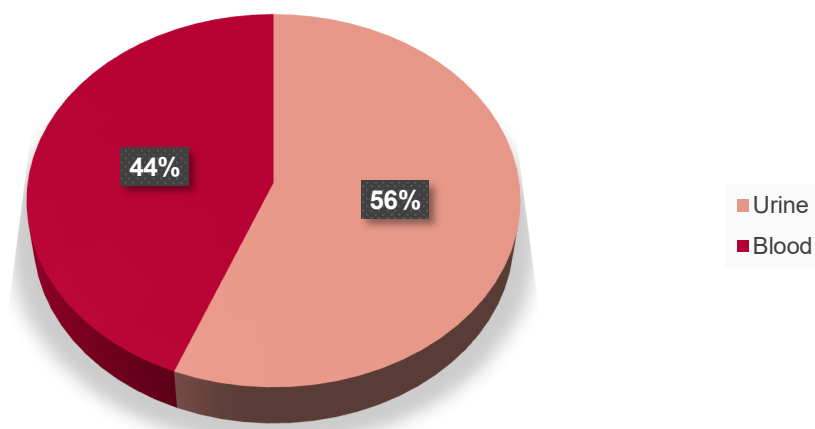

SAMPLING IN NUMBERS

The number of tests carried out on public order between 01 January and 31 December 2021: 1500 samples, with the distribution of samples by sport, mainly among the national team members of the main summer and winter Olympic sports.

The tests were mainly conducted among athletes of the National Registered Testing Team.

Up to 31 December 2021, a total of 1,500 tests have been carried out on behalf of the state.

Distribution of samples:

Urine - 842 (56%); Blood - 658 (44%)

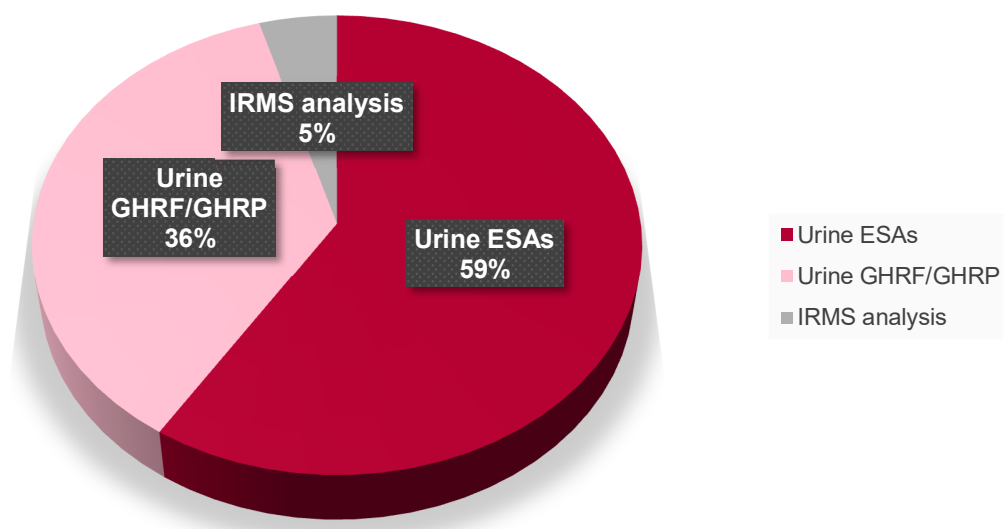

Blood tests were carried out in the direction of the following analyses: Growth hormone /Erythropoiesis stimulating agents / Biological Passport Program - Examination of blood parameters

Laboratory analysis of samples:

Blood / Urine test: WADA accredited laboratory in Seibersdorf – 1500 (100%)

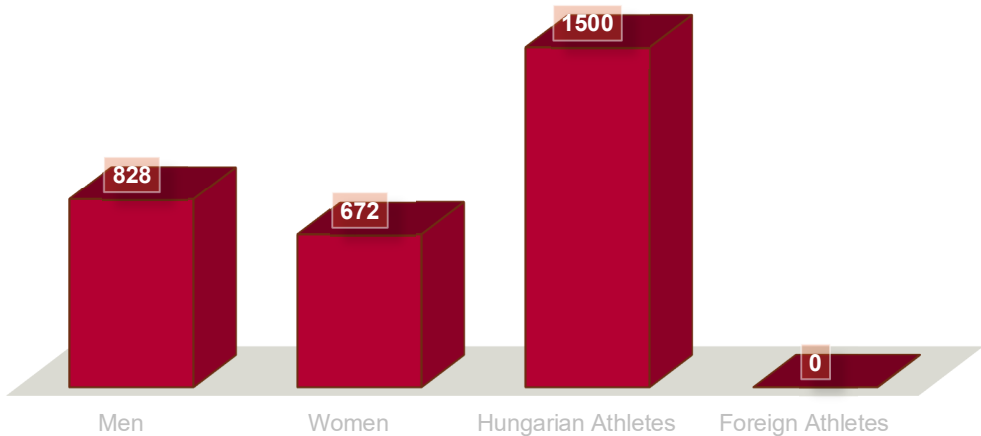

Additional tests (urine GHRF/GHRP, urine ESAs analysis and IRMS isotope ratio measurement) required by WADA for each sport have been carried out on the basis of the relevant WADA Technical Document (WADA TD2021SSA).

According to the current WADA Technical Document (WADA TD2021SSA), the type and number of mandatory additional analyses are:

Urine ESAs: 170; urine GHRF/GHRP: 105; IRMS analysis: 13

Gender distribution of sampling:

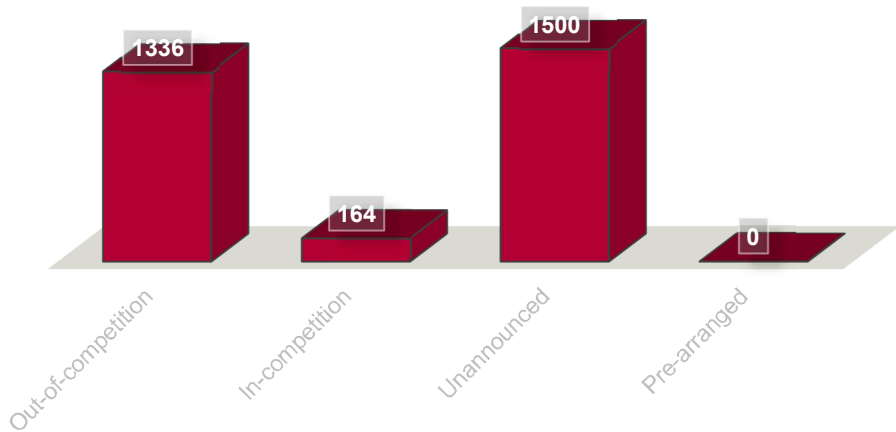

Total men: 828 (55%)

Total women: 672 (45%)

Total Hungarian Athletes: 15000 (100%)

Total foreign Athletes: 0 (0%)

Distribution of sampling:

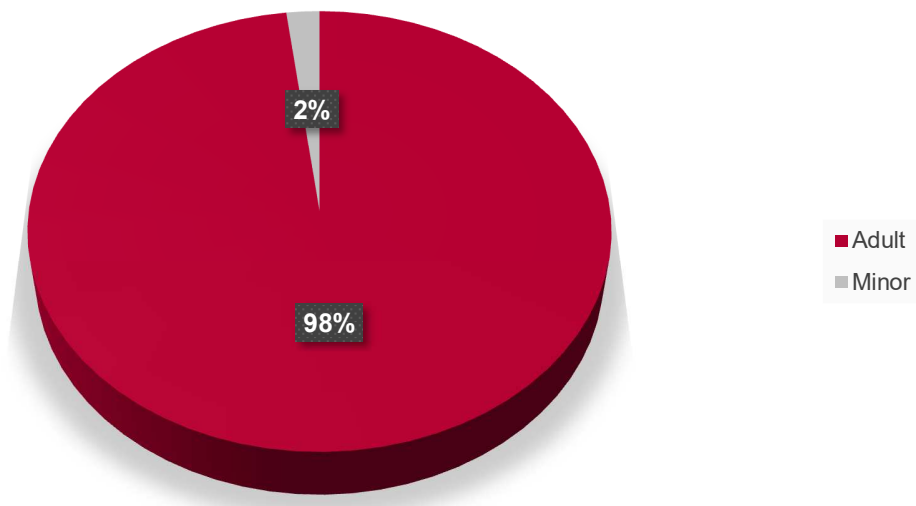

Out-of-competition sampling: 1336 (89%)

In-competition sampling: 164 (11%)

Unannounced sampling: 1500 (100%)

Pre-arranged sampling (announced): 0 (0%)

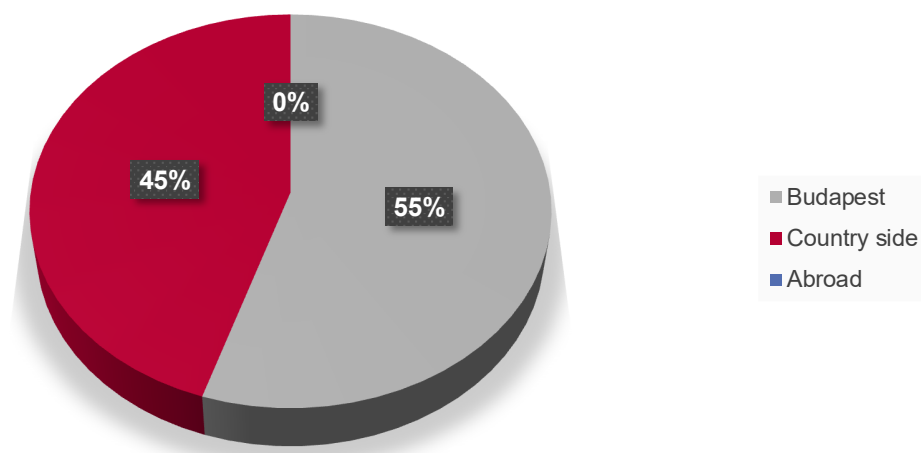

Age distribution of athletes subject to doping control:

Adult athlete - 1466 (98%)

Underage athlete - 34 (2%)

Location breakdown of sampling:

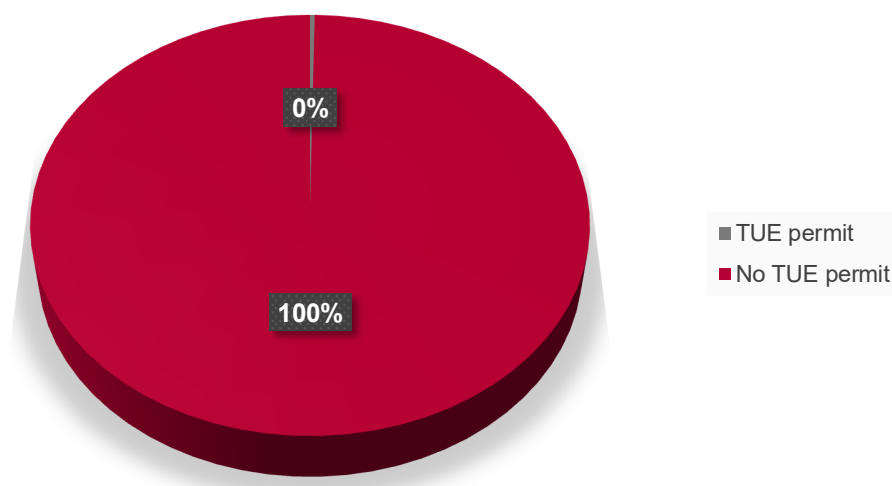

Budapest - 821 (55%)

Countryside - 679 (45%)

Abroad - 0 (0%)

D

During the doping control, the athlete announced the existence of a TUE licence:

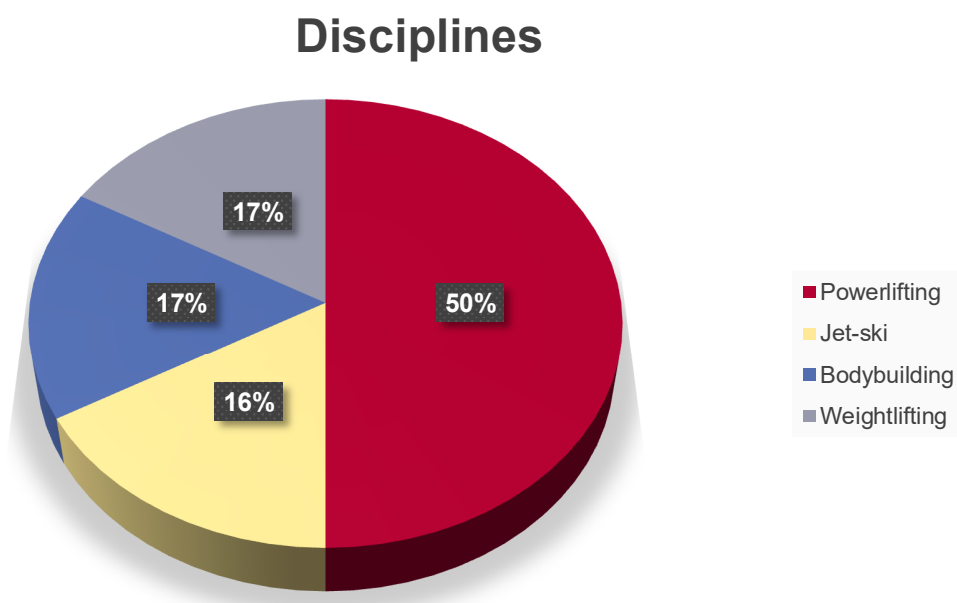

TUE permit - 6 (0,4%), No TUE permit - 1494 (99,6%)

DOPING DISCIPLINE CASES

Regarding the publication of doping cases registered in 2021 in accordance with the legal regulations, the Hungarian Anti-Doping Group complies on its website.

<https://www.antidopping.hu/SZOVEG49.html>

Doping discipline cases in 2021:

Powerlifting: 3, Jet-ski: 1, Bodybuilding: 1, Weightlifting: 1

Processing of positive cases registered in 2021, by 31-12-2021: 6 Hungarian athletes

Weightlifting:

- **Anabolic Androgenic Steroids – Group S1/1/a – Stanozolol** – positive sample;

Weightlifting:

- **Anabolic Androgenic Steroids – Group S1/1/a – Stanozolol** – positive sample;

Weightlifting:

- **Anabolic Androgenic Steroids – Group S1/1/a – Stanozolol** – positive sample;

Jet-ski:

- **Anabolic Androgenic Steroids – Group S1/1/a – Metandienone and Stanozolol and its metabolite** – positive sample;

Bodybuilding:

- **Hormonal and metabolic modulators – S4/4/4.1 group of unspecified agents – GW1516** – positive sample;
- **Beta-2-agonists – S3. group – Vilanterol** – positive sample

Powerlifting:

- **Anabolic Androgenic Steroids – Group S1/1/a – Metandienone and Stanozolol and its metabolite** – positive sample;

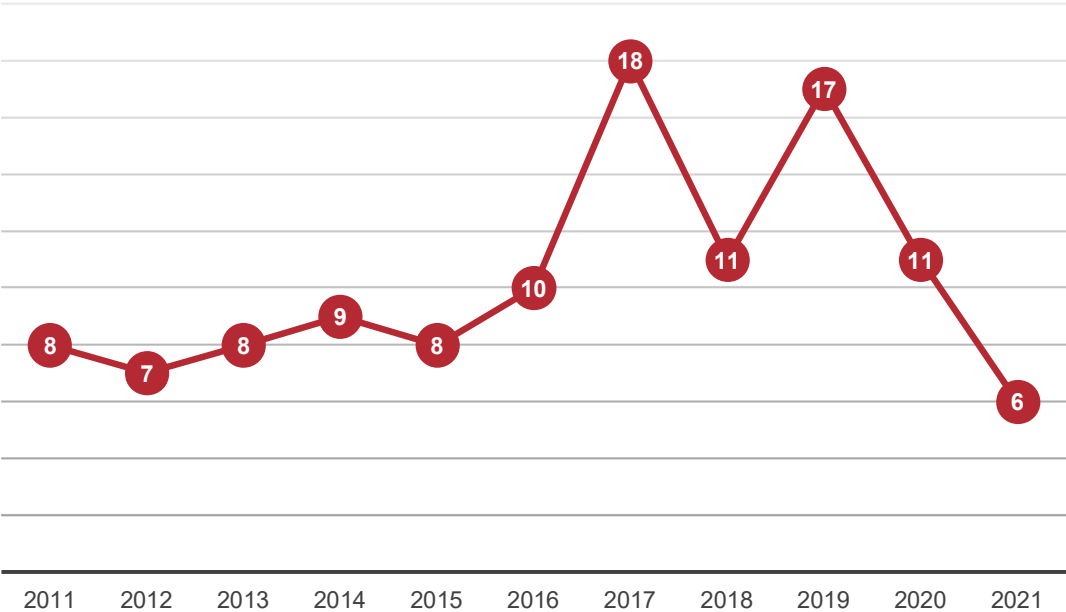

Failed sampling procedure and failure to provide whereabouts information:

A failed doping sampling procedure is established and recorded when, on the basis of the whereabouts information sheet submitted by the athlete, the Doping Control Officers search for the designated athlete at the specified time and place, but he or she is not at the place and time specified by him. Under the WADA Code and the current Hungarian Government Decree, 3 failed samples are found to have been doping violations within 12 months and will always result in disciplinary action.

According to the records of the Hungarian Antidoping Group, among the members of the National Registered Investigation Group, failure to provide whereabouts information was registered in 152 cases in 2021, and unsuccessful sampling was documented in **77 cases**.

No doping discipline procedure has been initiated for any athlete.

Development of doping discipline procedures between 2011 and 2021

NADO TASKS CARRIED OUT IN 2021

- In addition to ongoing WADA monitoring and control, HUNADO continues to enjoy WADA's fully compliant status.
- The findings of the WADA 4-year (2018-2019-2020-2021) Corrective Action Report (CAR), which contains the findings of a comprehensive compliant audit covering all NADO functions, are currently being processed. Ongoing coordination on implementation is ongoing with WADA auditors through the Code Compliance Center (CCC).

The Corrective Action Report implementation plan and the documents for the elimination and resolution of the secondary (high priority) nonconformities prepared on the basis of the Corrective Action Plan (CAP) were sent to WADA within the given deadline (23.11.2021).

The final deadline for compliance with the ongoing WADA comments and expectations is 21.12.2021. but at this stage, the HUNADO Risk assessment for 2021, the TDP and its implementation, the operation of the Therapeutic Use Exemption - Hungarian TUE Committee, the Education Department, the Result management and the data protection regulation have been adopted, only the plans for 2022 (Risk assessment, TDP and monitoring of HUNADO testing pools) are still on the agenda.

- According to the WADA Critical Nonconformities Implementation Plan, in line with the current national regulations, the HUNADO's "testing" department (Risk assessment, TDP, RTP - TP - General Pool and Other Pool) has been reorganized to plan, organize and coordinate the sampling.
- A fully compliant revision of the HUNADO Code, harmonized with the provisions of the new WADA Code that will enter into force on 01.01.2021, has been completed, published on the website of the Hungarian Anti-Doping Group and approved and accepted by WADA ("fully compliant" rating)
- First Level Doping Commission under the auspices of HUNADO

The inaugural meeting of the Doping Committee, established in accordance with the new legal requirements, took place on 9 September 2021.

The HUNADO Doping Committee is the body responsible for the conduct of doping proceedings in the first instance under the terms of Government Decree 363/2021 (28.VI.) on the rules in force for anti-doping activities, consisting of seven members, whose chairman and members are appointed by the Head of HUNADO.

The Doping Board operates in a 3-member panel, the members of which are appointed by the Chair of the Doping Board from a panel of seven members, on the basis of their expertise and experience in the case (the Chair may also appoint himself/herself to the Doping Board). The Doping Board requires the appointment of at least one member with a law degree, who is responsible for coordinating the activities of the Doping Board and drafting the relevant documents (summons, decision, etc.). HUNADO will continue to provide the material and other conditions for its operation.

The Doping Committee operates completely independently and HUNADO is not involved in the decision.

The Doping Control Board: following a positive laboratory "A" Sample, if the "B" Sample analysis confirms a positive "A" Sample, or in the case of other conduct that could constitute doping offences (refusal to provide a Sample, tampering, etc.), if the case requires a hearing, a panel of the Doping Control Board shall hear the athlete's defence or take a decision at first instance on the level of the penalty (disqualification). The decision closing the case will be sent in English translation to WADA and to the International Federation of the sport concerned. Appeals against the first instance decision can be lodged with the Court of Arbitration for Sport (CAS) in Lausanne for internationally qualified athletes and with the Permanent Court of Arbitration for Sport (SCoA) attached to the MOB for national and lower level athletes. WADA and the

international sport federation of the sport are also entitled to appeal first instance decisions.

- **The Hungarian TUE Committee, a body of independent medical experts under the auspices of HUNADO**

The Hungarian TUE Committee operates completely independently, HUNADO is not involved in the decision.

The decision of the Commission is taken at first instance by the three members appointed by the President, and on appeal by the other three members of the Commission who did not take part in the first instance decision. The administrative tasks of the Hungarian TUE Committee are carried out by one of its members as Secretary of the Hungarian TUE Committee. The material and other conditions of operation will continue to be provided by HUNADO.

- **In view of the COVID-19 virus pandemic, the Hungarian Anti-Doping Group is in continuous consultation with the virological experts of the National Centre for Epidemiology, the Medical Committee of the Hungarian Olympic Committee and the National Institute of Sports Health. The necessary preventive and precautionary measures have been taken in relation to the health emergency, and the epidemiological protective equipment has been procured. Despite the pandemic, the Hungarian Antidoping Team is currently operating at full capacity, in accordance with the provisions of the relevant WADA Code (International Standard for Testing and Investigation), the Testing Distribution Plan (TDP) and the NADO tasks.**
- HUNADO holds weekly **teleconferences with** the representatives of the **Central European Anti-Doping Organisations (CEADO countries)** on the development of the epidemic situation and the implementation of the anti-doping programme, and keeps in constant contact with the WADA European Office.

- **HUNADO participates in the mentoring programme of the Eastern European Regional Anti-Doping Organisation (EERADO) at the request of CEADO and WADA, and supports the more effective functioning of the National Anti-Doping Organisations in Eastern Europe (EERADO: Albania, Armenia, Bosnia and Herzegovina, Georgia, Kosovo, North Macedonia, Moldova, Montenegro)**
- In all cases, the samples were taken in accordance with the contract by **doping control officers** who were issued with a letter of appointment by the Managing Director of the Hungarian Anti-Doping Group Public Benefit Non-Profit Ltd. Currently, the Hungarian Anti-Doping Group has a staff of 45 doping control officers, which was optimally sufficient to fulfil the orders of the state and other anti-doping organisations (sports federations, competition organisers, etc.) for 2021.
- **20 Hungarian doping control officers have successfully completed the International Doping Control Officer (IDCO) training, which was organised and supervised by the International Doping Control Agency (ITA) and the technical management of which was also undertaken by HUNADO for the doping control officers of the other CEADO Member States.**
- **The second annual review audit of the ISO quality management system in the second year following the adoption of the new 2015 Standard (09 April 2021), conducted online (skype) due to the exceptional circumstances, was completed with complete success, and the doping control system operated by the Hungarian Anti-Doping Group continues to fully comply with the requirements of the MSZ EN ISO 9001:2015 Standard.**
- The Hungarian Anti-Doping Group has taken out liability insurance for doping controls, which is still in force.

In 2021, there were no claims for damages against the Hungarian Anti-Doping Group Public Non-profit Ltd.

- The **current International Prohibited List** is published on the HUNADO website (www.antidopping.hu) in two different breakdowns - by manufacturing name, marketing name; and by compound name, compound name - and also indicates the possibility of obtaining a Therapeutic Use Exemption (TUE). The current Prohibition List is maintained and updated by HUNADO.
- The **Doping Information Helpline** continues to operate, **with** a trained doping expert on the line to answer the many questions received during working hours, from 8am to 5pm. In addition, questions or comments received at the e-mail addresses indicated on the HUNADO website (antidopping@antidopping.hu; tiltolista@antidopping.hu or info@antidopping.hu) will be answered as soon as possible. The main objective is to ensure that information on anti-doping activities is presented only at the highest professional level, with strict control of the credibility and accuracy of the data published.
- **The website of the Hungarian Anti-Doping Group has been completely renewed. The website www.antidopping.hu has been transformed into a new, modern, user-friendly website with up-to-date information, taking into account the recommendations of WADA and respecting data protection rules.**
- **HUNADO has implemented the new International Standard for Education and Education against Doping, which will enter into force on 01.01.2021, and has started to build the new education system.**
- **HUNADO has created and published a completely new e-learning program in Hungarian on its website based on the new International Standard for Education (ISE) for anti-doping education, training and information, which will enter into force on 01.01.2021.**

The e-learning programme consists of 3 modules and upon completion of all three modules and the examination requirement, a final certificate is awarded.

Completion of the Hungarian Antidoping Group e-learning programme is recommended annually for all National Registered Testing Group members.

Completion of the MACS e-learning programme in 2021 will also mean compliance with the minimum requirement for anti-doping education as a condition of Olympic entry, as set out in the Hungarian Olympic Committee's General Assembly resolution.

- **The Hungarian Anti-Doping Group organised an online "value-based education" for 8 coaches of junior athletes in the framework of a pilot programme recommended by WADA. The training was a great success and MACS plans to continue the programme (online 01.06.2021)**
- **The Hungarian Anti-Doping Group (HUNADO) has produced and published a training video in Hungarian and English on the steps of doping control.**

In Hungarian: <https://www.youtube.com/watch?v=hQTy3QzUIXc&t=34s>

In English: <https://www.youtube.com/watch?v=vTnolKKhQR4&t=85s>

- **The names of the members of the National and International Registered Testing Team (RTP and IRTP) have been drawn up on the basis of the professional advice of the sports federations and all members have been informed by letter and have been sent their consent forms.**
- **All modules of the international information system ADAMS have been implemented. The English-language Dutch information system was translated by the Hungarian Antidoping Group and made available to Hungarian athletes and WADA, so that the basic instructions could be displayed in Hungarian in the ADAMS system, thus helping Hungarian athletes to use it smoothly. In accordance with WADA regulations, it is now only possible to provide whereabouts information through the international ADAMS system.** Through the Hungarian Anti-Doping Group's own information system, only athletes who are required to register can now register to be included in the MACS database, but whereabouts information can only

be provided through the ADAMS system. Therefore, all athletes who are currently members of the National Registered Testing Team (HUNADO RTP) or the HUNADO Testing Team (HUNADO TP) - i.e. who are obliged to provide whereabouts information - will be registered in the ADAMS system, will receive access codes and instructions on how to use it properly will be sent to all athletes in the form of a newsletter/email/ and free publications. Considering that for many athletes, language difficulties are a problem in the management of the international whereabouts system, the Hungarian Anti-Doping Group has undertaken to assist and mediate in the communication between the athlete and his/her International Federation and in the proper management of the whereabouts system. In order to keep up to date, athletes are kept in contact with the National Registered Testing Team and are regularly informed of the latest news, but for data protection reasons the list of Registered Testing Teams cannot be displayed on the Hungarian Antidoping Group's website, so only those with appropriate access can obtain information on it via the international information system ADAMS.

- **Regardless of the epidemiological situation, the obligation to provide whereabouts information is ongoing, which the Hungarian Anti-Doping Group continues to monitor in accordance with WADA regulations and sanctioned in case of deficiencies or non-compliance.**
- **The Hungarian Anti-Doping Group, in cooperation with the telecommunications company VODAFONE, has developed and implemented a new SMS service system to improve efficiency, which means that all athletes registered in the MACS system will receive regular SMS messages with short updates on important news or a warning about the proper performance of the Dutch information service.**
- **Failed samples** were recorded, documented and **sanctioned**.

- **Failure to provide whereabouts information**, as conduct constituting doping offences, was recorded and documented among the members of the National Registered Testing Team and the necessary **sanctions** were implemented.
- In connection with the website, the Hungarian Anti-Doping Group has periodically published and distributed **electronic newsletters** to its affiliated sports federations and athletes in order to provide up-to-date information and to promote and publicise anti-doping activities.
- Athletes were informed by newsletters about the continuity of their obligation to provide information in the Netherlands; developments in the epidemiological situation, health precautions and current anti-doping information and news. A continuous telephone and e-mail service is in place to ensure that all questions received by HUNADO are answered as soon as possible.
- The Hungarian Anti-Doping Group has successfully completed the organisation and coordination of the doping control of the **LEN European Aquatics Championships**, which will take place in **Budapest** between 10-23 May 2021 in **the Danube Arena and Lake Lupa**.
- The Hungarian Anti-Doping Group has launched **a call for applications for Hungarian sports federations and sports bodies for the "Installation of an anti-doping information tent at major domestic sporting events"**. The costs of the installation of the anti-doping information tent and the production of the information materials used will be borne entirely by the Hungarian Anti-Doping Group. The Information Tent is part of the WADA Outreach Education Programme, where the Hungarian Anti-Doping Group will present its own educational publications, the so-called WADA Quiz, available in several languages, and interactive anti-doping educational presentations. The call for proposals was completed in due time and the selected organisations were notified.

- The Hungarian Anti-Doping Group announced **a call for applications for the provision of free anti-doping lectures for domestic sports federations and sports bodies** (10 free lectures for domestic sports federations and 5 free lectures for sports bodies in Budapest and in rural areas) The application was completed within the specified deadline and the selected organisations were notified.
- The head of HUNADO gave 3 online **lectures at the anti-doping training of the Hungarian Coaches' Association's flagship coaching programme, in order to complete the mandatory anti-doping education programme for coaches, entitled "New trends in the world of doping and challenges in the fight against doping", with the participation of 950 coaches and sports professionals.** In view of the exceptional circumstances, the presentation took place online via the zoom app (19.01.2021; 20.05.2021; 05.11.2021).
- The head of HUNADO held **an anti-doping course** (2 x 180 minutes) **at the University of Physical Education on "History of doping and new trends in the world of doping and challenges in the fight against doping".** Due to the exceptional circumstances, the lecture took place online via the teams application (05.03.2021 and 06.03.2021).
- The head of HUNADO gave an online presentation **at the University of Physical Education's webinar "Sport and COVID"** for students and teachers of the University (teams application 2021.03.08)
- The head of HUNADO was invited for the fourth time and gave **a lecture at the postgraduate training course "Sports Diplomacy Advisor" at the Szent István University of Győr,** entitled "Diplomatic tasks in the fight against doping, or new trends and challenges in doping control". The main patron of the training is the Consul General of Hungary in Barcelona. Due to the exceptional circumstances, the presentation was held online via the zoom application (2021-03-27).
- **Two members of the Hungarian Antidoping Group participated in the WADA online TUE Symposium, which was held to present the practical implementation of the**

provisions and rules of the new International Standard for Therapeutic Use Exemptions - TUEs (ISTUE), which entered into force on 01.01.2021 (online 22-23.04.2021)

- **Two members of the Hungarian Antidoping Group participated in the WADA online Medical Exemption - TUE webinar, which was held to present the provisions and rules of the new International Standard for Therapeutic Exemptions - TUE (ISTUE), which entered into force on 01.01.2021, and the practical implementation of the new restrictions that will enter into force on 01.01.2022.**
- **3 members of the Hungarian Anti-Doping Team participated in the international anti-doping workshop "Investigation and intelligence from the perspective of WADA and National Anti-Doping Organizations", organized online on 29.11.2021 by the WADA accredited laboratory in Seibersdorf, supported and attended by WADA.**
- **Two members of the Hungarian Anti-Doping Group participated in the UEFA online Education Workshop, which was held to present the practical implementation of the new International Standard for Education and Training (ISE), which entered into force on 01.01.2021 (online 18-19.08.2021)**

Following the UEFA educational training, the preparation of a cooperation agreement between the Hungarian Football Association and the Hungarian Anti-Doping Group-HUNADO has started, in order to develop a comprehensive anti-doping education programme and e-learning training focused on football.

- **The head of the Hungarian Anti-Doping Group was invited by the Hungarian Society of Sports Medicine to participate as a session leader and to give a highly successful presentation on "New trends and challenges in the fight against doping before the XXXII Summer Olympic Games in Tokyo" at the biannual Sports Medicine Conference (Budapest, 27-28 May 2021 online)**
- **The head of HUNADO gave 2 online presentations at the Hungarian Olympic Committee's TOKYO2020 anti-doping event, in order to fulfil the minimum**

requirement of the anti-doping education programme for all athletes and sports professionals participating in the Olympics, as set out in the MOB General Assembly Decision, entitled "New trends in the world of doping and challenges in the fight against doping in the light of the Tokyo Olympics", with the participation of the 572-strong Olympic long list. In view of the exceptional circumstances, both presentations were held online via the zoom app (17.04.2021 and 18.06.2021).

- The head of HUNADO gave 2 online **presentations at the Hungarian Paralympic Committee's TOKYO2020 anti-doping event to ensure that all athletes and sports professionals participating in the Paralympics have access to the most relevant and up-to-date anti-doping information.** The presentation was entitled: "New trends in doping and challenges in the fight against doping in the light of the Tokyo Paralympics" Due to the exceptional circumstances, both presentations were held online via the zoom app (03.08.2021 and 09.08.2021).
- The head of HUNADO held a very successful **lecture at the Faculty of Law and Political Sciences of Pázmány Péter Catholic University** entitled "New trends in the world of doping and challenges in the fight against doping" (Budapest, 2021-09-20). Due to the success of the lecture among students, the University plans to offer anti-doping as an elective course for first and second year students in the future, on the recommendation of the Student Council.
- The head of HUNADO gave **a lecture at the preparatory course for doctors preparing for the specialist examination of sports physicians,** entitled "Current issues, new trends and rules in the fight against doping", at the invitation and on the organization of the **National Institute of Sports Health** (2021.10.08 online)
- The head of HUNADO gave two online **presentations at the Hungarian Olympic Committee's Beijing2022 anti-doping event to ensure that all athletes and sports professionals participating in next year's Winter Olympics have access to the latest and most up-to-date anti-doping information.** The presentation was entitled: "New

trends in doping and challenges in the fight against doping for the Beijing Winter Olympics" and was delivered online via the zoom app (03.11.2021; 08.12.2021).

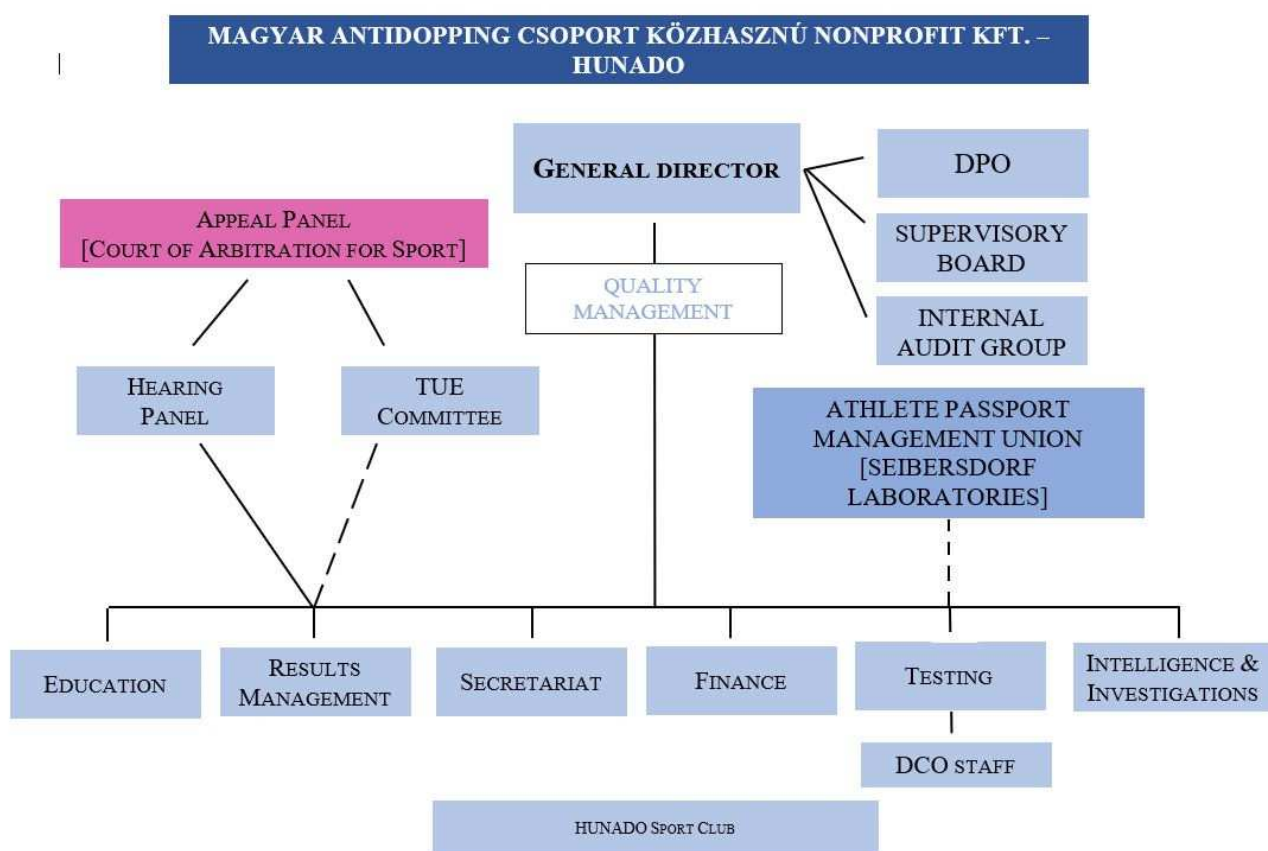

- The head of HUNADO gave a very successful **lecture on doping and drug prevention at the University of Physical Education** (Budapest, 03.11.2021)
- The head of HUNADO gave a highly successful **lecture at the** Institute of Health Development and Sports Sciences of Eötvös Loránd University **entitled "Current developments in the fight against doping in the shadow of COVID"** (10.11.2021 online)
- The Legal Director of HUNADO gave a very successful **lecture on "Anti-Doping Tasks in the Light of the New WADA Code and Changes in Hungarian Laws"**, organized by the **National Competitive Sports Association** (NCAES) (Budapest, 08.12.2021)
- Work on **education and prevention** is ongoing, with a number of presentations on anti-doping issues also taking place during this period:

Online lecture on anti-doping tasks for the national figure skating team and their coaches, organised jointly with the Hungarian National Skaters' Association (2021-02-19); Online lecture on anti-doping tasks for the national figure skating team and their coaches, organised jointly with the Hungarian Badminton Association (2021-04-17); an online lecture on anti-doping for the national team and their coaches (2021-06-13); an online lecture on anti-doping for the adult and junior national team and their coaches (2021-09-07), organised jointly with the Hungarian Synchronised Swimming Association; in cooperation with the Hungarian Curling Federation, online lecture on anti-doping for the national team and their coaches (2021-09-17, online); in cooperation with the Hungarian Floorball Federation, online lecture on anti-doping for the adult and junior national team and their coaches (2021-09-29); in cooperation with the Hungarian Karate Federation, online lecture on anti-doping for the adult and junior national team and their coaches (2021-12-11).

- Training and education of doping control officers is also regular and online through the teams application.

- **HUNADO's relations with the Hungarian sports press are** very close, and during this period the Executive Director made several media appearances and appeared in practically all national press and media outlets in order to keep the public updated on the current situation of anti-doping work and to raise awareness of the dangers of doping.
